

# Historic American Buildings Survey, Louisiana Division Records

## SOUTHEASTERN ARCHITECTURAL ARCHIVE COLLECTION 13

Measured Drawings and Documentation Photographs.  
1930's - 1998

Copy photographic prints, and original and copies of measured drawings of Louisiana plantations and early New Orleans buildings for documentation for the Historic American Buildings Survey, Washington, D.C. The earlier drawings from the 1930's are mostly half-sized blue line prints of the originals, which are housed with the official H.A.B.S. records at the Library of Congress. The later drawings, which include originals and copies, are from the H.A.B.S. projects done by the Tulane School of Architecture, from the early 1980's to 1998.

### PROVENANCE

Copies of early drawings were given by various donors in the mid-1980's. Photographs and negatives were transferred to S.E.A.A. from the School of Architecture in 1983. Later drawings were given by Eugene Cizek, director of the Tulane School of Architecture H.A.B.S. project, in 1987 and 1999.

### INVENTORY

#### **Measured Drawings, Large Format.**
