

Moise Goldstein Office Records

SOUTHEASTERN ARCHITECTURAL ARCHIVE COLLECTION 4

Project drawings and specifications, correspondence, photographs.
1916 - 1963

Records of the office of New Orleans architect Moise H. Goldstein (1882-1972), and records of successor offices, as noted in the following chronology.

◆Moise H. Goldstein	1914-1940
◆Moise H. Goldstein and Associates	1940-1947
◆Goldstein, Parham, and Labouisse (Frederick D. Parham, 1893-1971; F. Monroe Labouisse, 1911-1998)	1947-1962

PROVENANCE

After the breakup of Goldstein, Parham, and Labouisse in 1962, the records of the firm were divided. Parham and Labouisse took some material, chiefly items pertaining to projects with which they had been especially involved. Moise Goldstein kept the remainder. He practiced a short time longer with his son, Louis Goldstein, but then retired. Louis continued a little longer on his own, but in 1965 moved to Michigan. Before leaving, Louis donated the bulk of the material to Tulane, along with some of his own records. A few items were donated by Mrs. Moise H. Goldstein, who also gave some things to Dillard University. Further donations came from Milton G. Scheurermann, Jr., formerly a member of the Goldstein, Parham, and Labouisse office. In the late 1980's, Louis Goldstein gave a small group of items found in a house owned by his father in Pass Christian, Mississippi.

INVENTORY

Project Drawings.

- Folder 1. Gumble Building, 517-525 Canal, New Orleans, LA. Ca. 1916. Moise H. Goldstein, architect. Plan No.197. Pencil and colored pencil on tracing paper. 10 sheets.
