Papers of Jane Erdmann Whitney (d. 1985) of New Orleans and New York City. Papers are correspondence dealing with horticulture and the arts, areas in which Whitney was particularly active.

PROVENANCE

Papers were given, after Whitney's death, by her husband, Morgan Whitney to Tulane. Along with the papers, gardening and horticulture books were also given. These books were added to the garden library of the New Orleans Town Gardeners. Non-horticulture books were transferred to book collections in Howard-Tilton Library.
