

Here are the instructions to install DataStore DS32.net on your computer. Please note, in order to install you must:

*Use Internet Explorer.

*Be the administrator of your computer.

1. Open Internet Explorer and go to “dsw.tcs.tulane.edu”
2. You will get a message that you are about to enter a secured site.
3. You will get a message to install files on your computer. Put a check in the box that reads “always trust Hitec” and then select “Yes” and/or “Next” to everything else.
4. You may get a message asking you to reboot your computer. Once you reboot, proceed with the following steps:
5. Open Internet Explorer
6. On your Toolbar, go to Tools => Internet Options
7. In the Internet Options dialogue box, click on the Security tab
8. Click on the Trusted Sites icon (the green circle with a check mark)
9. Now, click on the “Sites...” button

Under the list of web sites displayed in the Trusted Sites dialogue box, you should see the following url listed: <https://dsw.tcs.tulane.edu>

If this url is not listed, add it by doing the following:

10. In the Trusted Sites dialogue box, uncheck the “Require server verification...” checkbox (located near the bottom of the dialogue box)
11. In the “Add this Web site to the zone” field, type <https://dsw.tcs.tulane.edu>
12. Now, click the “Add” button
13. Click OK
14. In the url address field, type: dsw.tcs.tulane.edu
15. Once the DataStore log-in screen appears, save it to your Favorites.
