Lab Night This Monday

Now that the summer field season is ending we're packing up our shovels and trowels and heading indoors.

Luckily, cool temperatures bring lab workshops and many new artifact discoveries!

Volunteer lab workshops help us to sort, analyze, and catalog artifacts from our summer work. This Monday, help us analyze Berry site pottery from 6:30pm to 8:00pm at the Wall Center for Archaeological Research in Morganton. We will be sorting pottery based on decoration techniques, paying particular attention to cordmarked pottery.

No experience is necessary. Registration is free for all members. If you can't make it to the October 3rd lab night, another workshop will be held at the same time on Monday, October 17th.

For more information and to reserve a space, please contact Emma Richardson at exploringjoara@att.net or 828-439-2463. We look forward to seeing you soon!
